1 Since August 2000, the "resident population" approach has been adopted in place of the "extended de facto" approach for compiling population estimates and revised population figures backdated to 1996 have been compiled. In this table, population-related figures from 1996 onwards are compiled based on the new approach. While they are not strictly comparable with those of earlier years, they are broadly comparable.

Notes : 1 From 1993 onwards, the occupational classification used in the General Household Survey basically follows the major groups of the 'International Standard Classification of Occupations (1988)' with local adaptation for Hong Kong. There are significant differences between this classification scheme and the one adopted for years prior to 1993. Hence, no comparison can be made with earlier years.

由一九九三年開始，綜合住戶統計調查採用的職業分類，基本上遵照「國際標準職業分類(一九八八)」的主要組別劃分，並因應本港情況作出修訂。由於這套分類系統與一九九三年以前採用的分類系統差異很大，因此，根據這套系統編製的統計數字不宜與一九九三年以前編製的統計數字作比較。
