**Taking Forward the Development of  
the Guangdong-Hong Kong-Macao Greater Bay Area**

This paper briefs Members on the work of the Government of the Hong Kong Special Administrative Region in taking forward the development of the Guangdong-Hong Kong-Macao Greater Bay Area (“Greater Bay Area”).

2. The development of the Greater Bay Area is a key national strategy personally devised, personally planned and personally driven by President Xi Jinping. Its objectives are to, through further deepening of co-operation among Guangdong, Hong Kong and Macao, leverage the complementary advantages of the three places, take forward the synergistic economic development, and develop an international first-class bay area ideal for living, working and travelling, thereby further enhancing the Greater Bay Area’s supporting and leading role in the country’s economic development and opening up. The development of the Greater Bay Area is also the best entry point for Hong Kong to actively integrate into the overall national development, and an important source of impetus for growth during the critical juncture for Hong Kong to advance from stability to prosperity. As one of the core cities and core engines for regional development in the Greater Bay Area, Hong Kong has all along been closely co-operating with Guangdong and Macao under the principle of complementarity to proactively take forward Greater Bay Area development. This will not only bring unlimited opportunities to Hong Kong people and enterprises, but also contribute significantly to the high-quality development of the country and of the Greater Bay Area.

3. The Power-point presentation materials on the development of the Greater Bay Area is at **Annex**.
